

PRASANNA R

Software Engineer | Full Stack | Fintech & Payments | Microservices

+91 9655921566 • prasannar.0505@gmail.com • linkedin.com/in/prasanna-r-77530916b • prasannar.in • Coimbatore, India

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 4+ years of experience architecting high-performance payment gateway systems, microservices, and fintech platforms. Proven expertise in real-time transaction processing, ISO 20022/8583 financial messaging, event-driven architectures (Apache Kafka, IBM MQ), and AI-integrated applications. Consistently delivers scalable, secure, and regulatory-compliant backend solutions supporting multi-bank integrations across production environments with 99.9% SLA uptime.

TECHNICAL SKILLS

Languages: Java, JavaScript, Groovy, SQL

Frameworks & Backend: Spring Boot, Grails, REST APIs, Microservices Architecture, System Design

Frontend: React.js, HTML5, CSS3

Messaging & Streaming: Apache Kafka, IBM MQ, ActiveMQ, SwiftMQ

Databases: PostgreSQL, MySQL

Financial Standards: ISO 20022 (XML), ISO 8583, JSON, Fixed-Length, G3

AI & Integrations: OpenAI / ChatGPT API, AI-Powered Application Development

Tools & Practices: Git, SVN, Redmine, Redis, JIRA, Power Automate, Agile/Scrum, Performance Optimization, Security Best Practices

PROFESSIONAL EXPERIENCE

Software Engineer | MVI Technologies

Mar 2025 – Present

- Architected real-time and batch payment gateway systems supporting multi-bank integrations across ISO 20022 (XML), ISO 8583, JSON, and fixed-length financial message formats, achieving sub-second latency at scale.
- Engineered eGIRO mandate lifecycle workflows (creation and cancellation) ensuring full compliance with direct-debit banking regulations, reducing manual compliance effort by streamlining end-to-end processing.
- Built fault-tolerant, high-throughput event-driven transaction pipelines using Apache Kafka, IBM MQ, ActiveMQ, and SwiftMQ, sustaining 99.9% SLA uptime across production payment systems.
- Optimized production transaction systems through performance tuning and root-cause debugging, maintaining SLA compliance under peak load conditions without service degradation.

Software Engineer | Freckled Pvt Ltd

Jun 2022 – Mar 2025

- Developed and scaled a Learning Management System (LMS) using Java (Grails) and React.js, delivering features that served thousands of concurrent active learners with high reliability.
- Designed and deployed an AI-powered learning assistant by integrating the ChatGPT API, enabling personalized, context-aware student support at scale and increasing learner engagement.
- Built real-time analytics dashboards tracking user engagement, course performance, and learning outcomes, enabling data-driven product decisions and improving feature prioritization.
- Automated JIRA issue creation via Git log analysis using Power Automate, reducing root-cause identification time and accelerating incident resolution across engineering teams.

Software Developer Intern | Amphisoft Technologies

Nov 2021 – Jun 2022

- Completed full-stack training in Java, Groovy, HTML/CSS, and JavaScript; delivered production-ready features and was awarded Star Performer recognition for outstanding code quality.

KEY PROJECTS

- Payment Gateway System:** Designed real-time and batch transaction processing engine supporting ISO 20022/8583 multi-format messaging and multi-bank integrations with high availability and fault tolerance.
- eGIRO Mandate System:** Built end-to-end mandate lifecycle management (creation and cancellation) compliant with direct-debit banking standards, enabling automated regulatory processing.
- AI-Powered LMS Assistant:** Integrated OpenAI ChatGPT API into an enterprise LMS to deliver automated, context-aware personalized student support, demonstrating AI integration capability at scale.
- Automated Error Tracker:** Developed Git log-driven error tracking system that auto-generates JIRA tickets via workflow automation, significantly reducing mean time to resolution (MTTR).

EDUCATION

B.E. – Mechanical Engineering | Sri Ramakrishna Engineering College

2018 – 2022
